

DEVELOPING YOUR ORGANISATION

Calling Community Groups of all sizes, Public Sector Organisations, in fact any group or business large or small who would benefit from the following...

Give you a plan to improve relationships with other organisations

Help the Trustees and Management Committee clarify its current situation and its future plans

Increase your chances of obtaining funding

Provide a clear way forward in the form of a Summary Report to improve aspects of your organisation

Highlight some development needs that require addressing

Give the people in your organisation the opportunity to speak openly about the plans for the future

Give your Trustees and Management Team confidence that the organisation is running on a sound footing

What is the Community Health Check?

The Community Health Check has been designed to examine every part of your organisation. From the answers that you give, we will be able to identify where specific attention needs to be focused to improve your income generation, potential cost savings and your organisation's development. The Community Health Check has up to 7 sections...

- 1 Mapping the Future
- 2 Organisation Review
- 3 Relationship Footprint
- 4 Skills Audit
- 5 Summary Report
- 6 Assist with the production of an Organisational Development Plan
- 7 Progression towards a Quality Standard

How is the Health Check delivered?

The Health Check is a face to face session with people from your organisation, usually the Trustees and/or the Management Committee, and facilitated by Can Do Communities. To ensure everybody can participate, we project onto a large screen, this way the Health Check ensures the interaction between all participants.
